Subject: Looking for a good paying job but don't know where to begin?

Preheader: The Colorado Pay It Forward Fund and BetterOfferCO.org might be the answer

Body:

Dear <Name>,

Are you looking to find a good job that pays a livable wage, but don't know where to begin or how to pay for it?

Degrees and training programs are expensive and don't always lead to better jobs. A new venture designed to offer livable wage job training options to Coloradans of all ages and backgrounds. COPIFF offers a dynamic menu of best-in-class training programs proven to lead to good jobs in less than a year.

Education without long-term debt

You can find a more information on education and training programs funded by COPIFF on [BetterOffer Colorado](#). These programs are available to students with **no up-front** costs, and many are 100% free. For those that charge tuition, low interest-free loans are available and only repayable when graduates land a future job that pays at least \$40,000 / year. In other words, no long-term debt.

Check out the training programs in medical billing and coding, bookkeeping, IT security, certified nursing assistants and more!
