**Purpose:**

Purpose of this Investment Policy Statement

This investment policy statement is set forth by the Board of Directors of Colorado Gives Foundation (the Foundation) in order to:

- 1) Define the investment goals and objectives of the Foundation
- 2) Establish the overall investment parameters for the Short Term Portfolio (the Portfolio) including:
  - a. Downside risk limitations
  - b. Growth expectations
  - c. Liquidity guidelines
- 3) Delegate certain responsibilities to the Finance and Investment Committee
- 4) Establish reporting and monitoring requirements.

Colorado Gives Foundation seeks to holistically align the investment portfolio with the purpose of the organization: To make good happen. Therefore the Foundation actively seeks investments which meet the financial objectives of the organization and also support and recognize the importance of environmental, social and governance criteria.

**Goal of Foundation**

The Board of Directors believes that some funds have a time horizon of less than 5 years and should be invested with the appropriate level of risk. While investment returns are desired and risk is to be accepted in the Portfolio, more emphasis should be placed on preservation of capital than on return. To attain this goal, the overriding investment objective for the Portfolio is to maintain purchasing power and generate investment

returns, collectively total return, while carrying out the mission of the Foundation.

#### Investment Objectives

To meet the needs of the Foundation, the investment strategy emphasizes capital preservation as defined above. Specifically, the objectives in the investment management of the Portfolio are:

- Preservation of Purchasing Power: to achieve returns equal to the rate of inflation over the time horizon to preserve purchasing power of the Portfolio’s assets.
- Maximizing the generation of investment returns in excess of purchasing power while avoiding excessive risk. Risk control is an important element in the investment of the Portfolio’s assets.
- Outperform over the long term (defined as rolling five-year periods) the custom benchmark outlined in the table below

#### Benchmark

<b>Broad Asset Class</b>	<b>Index</b>	<b>Target Weight</b>

Fixed Income	U.S. Barclays US Aggregate 1-3 Year	75%

In general, the purpose of this statement is to outline a philosophy and attitude that will guide the investment management of the Portfolio toward the desired results. It is intended to be sufficiently specific to be meaningful, yet flexible enough to be practical.

Management will create such procedures as it deems necessary to implement this policy.
